Riviera, an icon of English modernism, à la suisse

Riviera Nights

Riviera is a traveler across time and space. One hundred years after its emergence in England, Swiss Typefaces have reimagined the early humanist sans and made it fit for contemporary use. Many of the key characteristics have been maintained, like the high-center 'M' or the vertically cut strokes in 'ace'. The quintessential English letter has been infused with a Swiss sense of style. Laid-back yet dressed to kill, a unique mix that is commonly found on the waterfront of Lake Leman. Riviera is distinguished through strongly modulated joins in 'bdpq' or 'mnu'. The widths are less varied, sporting a wider 'G' and a narrower 'W'. Glyphs with diagonals add extra sparkle by flashing their sharp vertices. Originally launched in our Lab in a single style onlys, Riviera has matured. It's now available as a full Collection in six weights, from Ultralight to Black – a magnificent typeface ready to elevate your designs.

File Formats

Available desktop font formats: OpenType/CFF (.otf extension), TrueType (.ttf extension)

We offer WebS and WebXL webfont files subsets — you will find them all in your package:
– WebS is a reduced and lighter font file suitable for most common web usages, containing only the Latin alphabet (without alternates, ligatures and OpenType features).
– WebXL is the complete font file containing all characters, including the many available only with OpenType functions and therefore not fully supported by all web browsers.

Available webfonts formats: .woff2, .woff, .eot, .ttf, .svg

The webfonts are manually optimized for ClearType rasterizers and above (DirectWrite), using TrueType hinting in vertical directions.

Available formats for App, EPUB, Broadcasting OpenType/CFF (.OTF extension)
